- Click **Start** -> **Programs** -> **Stellar Phoenix Data Recovery for iPhone** -> **Stellar Phoenix Data Recovery for iPhone**.

Or,

- Double click **Stellar Phoenix Data Recovery for iPhone** icon on the desktop.

Or,

- Click **Stellar Phoenix Data Recovery for iPhone** icon in **Quick Launch**.

# Ordering the Software

To know more about **Stellar Phoenix Data Recovery for iPhone**, click <https://www.stellarinfo.com/media-tools/iphone-data-recovery.php>

To purchase the software online, please visit <https://www.stellarinfo.com/media-tools/ios-data-recovery/buy-now.php>

Select either of the methods given above to purchase the software.

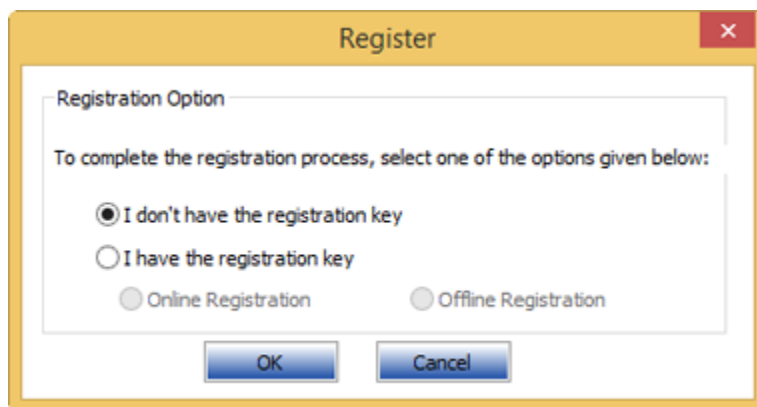

Once the order is confirmed, a serial number will be sent to you through e-mail, which would be required to activate the software.

# Registering the Software

The demo version is just for evaluation purpose and must be eventually registered to use the full functionality of the software. The software can be registered using the Registration Key which you will receive via email after purchasing the software.

## To register the software:

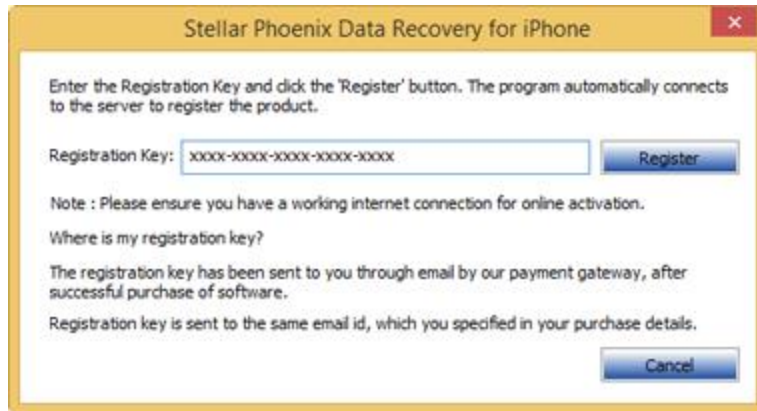

1. Run demo version of **Stellar Phoenix Data Recovery for iPhone** software.
2. Click **Register Stellar Phoenix Data Recovery for iPhone** icon from main interface. *Register* window is displayed as shown below.

3. Choose 'I don't have the registration key' (Use this option if you have not purchased the product) or select 'I have the registration key' (Use this option if you have already purchased the product).

## To register the software, when you do not have a registration key, follow the steps given below:

1. In the *Register* window, select '**I don't have the registration key**' option. Click **OK**, to go online and purchase the product.
2. Once the order is confirmed, a Registration Key will be sent to the email provided at the time of purchase.
3. In the *Online Registration* window, type the **Registration Key** and click **Register** button (Please ensure that you have an active Internet connection).

4. ' *Activation Completed Successfully* ' message is displayed after the process is completed successfully. Click **OK**.

**To register the software, when you have a key, follow the steps given below:**

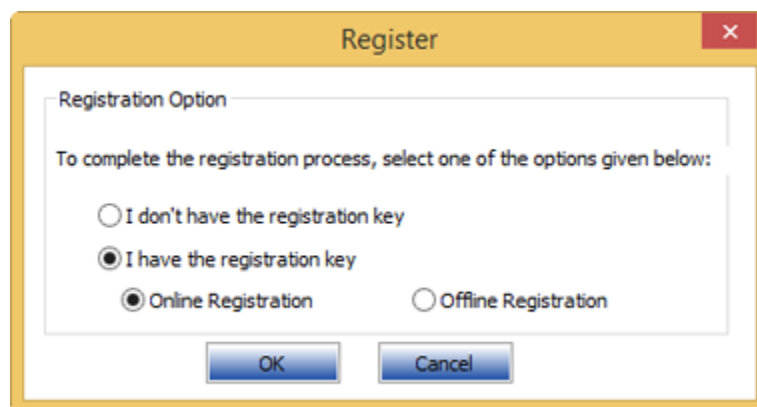

1. In the *Register* window, select '**I have the registration key**' option.
2. You can choose either '*Online Registration*' (Use this option to register the software over Internet) or '*Offline Registration*' (Use this option to register the software manually / through e-mail if for any reason, Internet connection is unavailable).

- **Online Registration**

Online Registration is possible only when an active Internet connection is available.

- **To register the software online:**

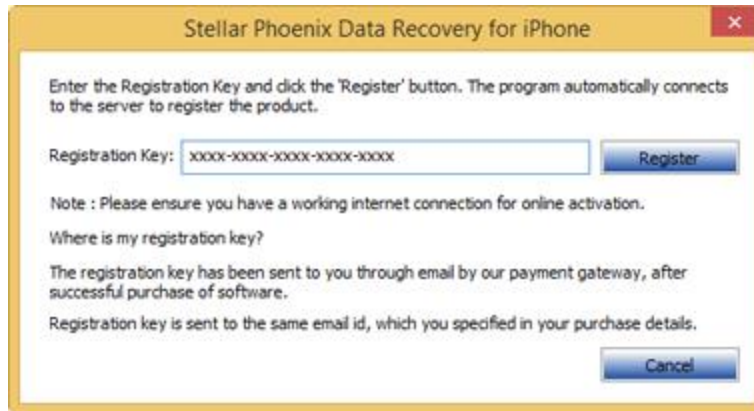

1. From the *Register* window, select **Online Registration**. Click **OK**.

2. An **Online Registration** dialog box will appear.

3. Type the **Registration Key** (received through email after purchasing the product) in the field of Registration Key. Click **Register**.

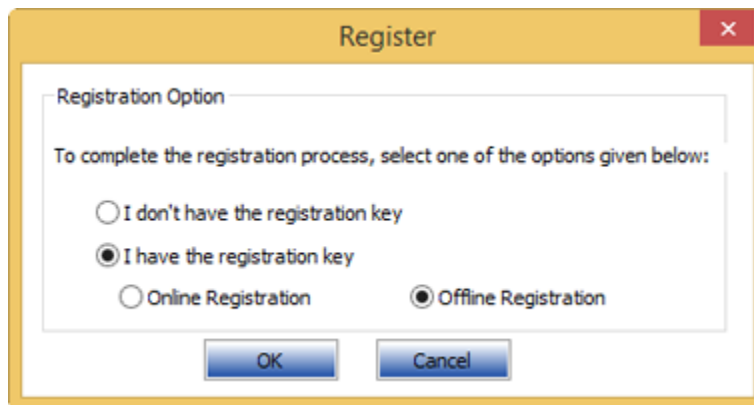

4. The software would automatically communicate with the license server to verify the entered key. If the key you entered is valid, software will be registered successfully.

- **Offline Registration**

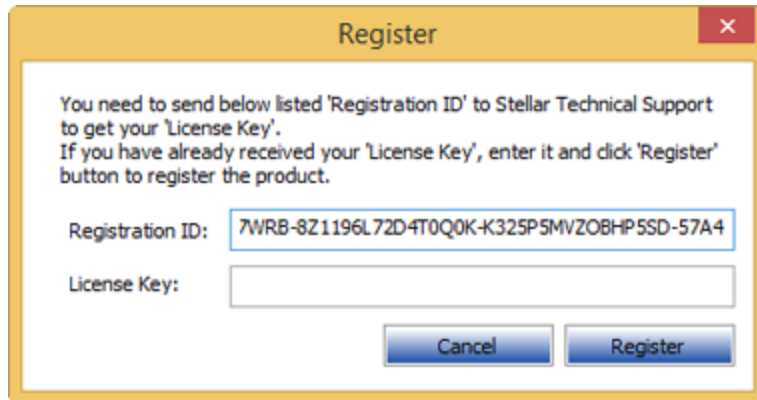

Offline Registration enables you to register the product when your computer does not have an Internet connection.

- **To register the software offline:**

1. From the *Register* window, select **Offline Registration**. Click **OK**.

2. An **Offline Registration** dialog box will appear displaying **Registration ID** in its respective field.

3. To get your License Key, which is required to register the software manually, you need to mail the listed **Registration ID** to [support@stellarinfo.com](mailto:support@stellarinfo.com).
4. A License Key will be sent to your email address after verifying the Registration ID and purchase details by *Technical Support*.
5. After receiving the License Key, open **Stellar Phoenix Data Recovery for iPhone**. In *Register* window, select '**I have the registration key**'.
6. Select **Offline Registration** and click **OK**.
7. Enter the **License Key** received through email in the field of License Key.

8. Click **Register** to activate the software. A confirmation message is displayed if a valid key is entered. Click **OK**.

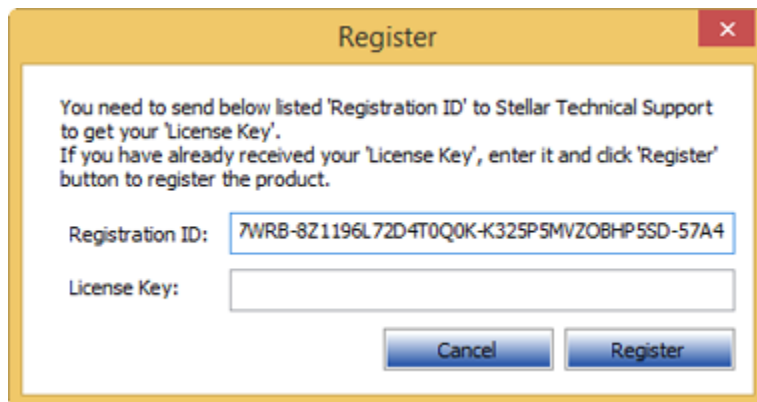

# Transfer License

**Stellar Phoenix Data Recovery for iPhone** allows you to transfer the license of the registered software to another computer on which you want to run the software with full functionality. This operation deactivates the product on your current computer so it can be reactivated on the new computer.

**To transfer a software license from one computer to another, please follow the specific steps below:**

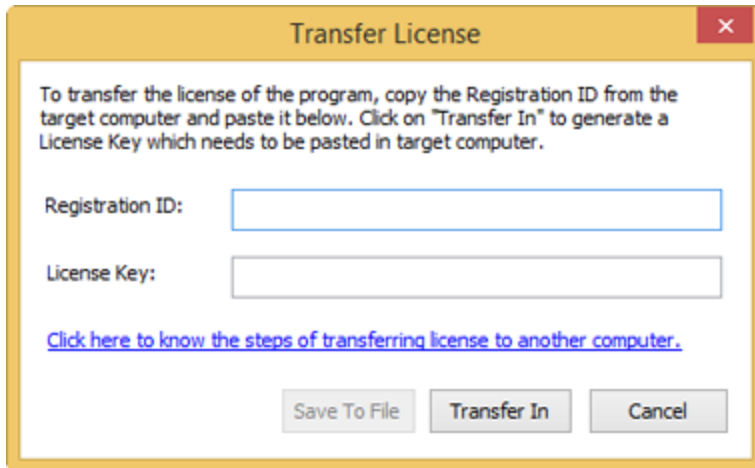

## On Target Computer:

1. Run demo version of the software.
2. Click **Register Stellar Phoenix Data Recovery for iPhone** icon from main interface. A new dialog appears.
3. From the *Register* window, select **Offline Registration**. Click **OK**.
4. An **Offline Registration** dialog box will appear displaying **Registration ID** in its respective field.

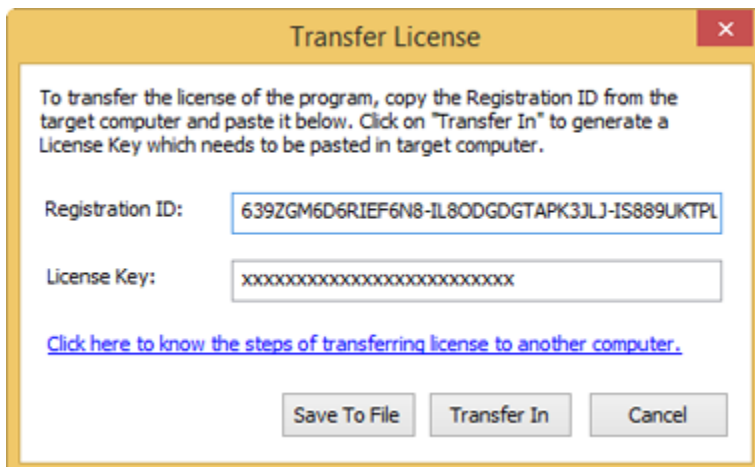

## On Source Computer:

1. Run registered version of **Stellar Phoenix Data Recovery for iPhone** software.
2. Click **Transfer License** icon from the main interface.

3. Copy the **Registration ID** displayed on the Target Computer in the field of Registration ID on the Source Computer.
4. To get your License Key, click **Transfer In** button on Source Computer. This will generate a License Key.

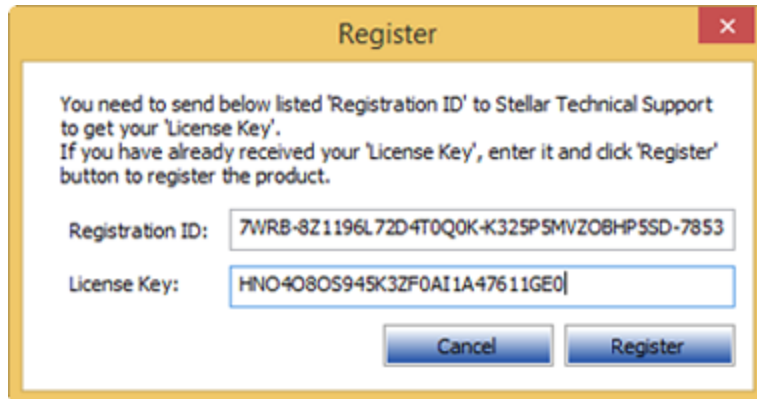

5. You have to save the License Key generated on the source computer. Click **Save to File** button to save the Registration ID and the License Key. In **Browse for Folder** dialog box, select the location where you want to save the details. Click **OK**.
6. ' *License Key has been saved successfully* ' message is displayed after the saving process is completed successfully. Click **OK**.

This will deactivate the product on Source Computer and you will no longer be able to use the software anymore on this computer.

#### **On Target Computer:**

1. Type the **License Key** which you have generated on the Source Computer in the provided field of License Key.

The image shows a Windows-style dialog box titled "Register". The dialog box has a yellow border and a red close button in the top right corner. The text inside the dialog box reads: "You need to send below listed 'Registration ID' to Stellar Technical Support to get your 'License Key'. If you have already received your 'License Key', enter it and click 'Register' button to register the product." Below the text, there are two input fields. The first field is labeled "Registration ID:" and contains the text "7WRB-8Z1196L72D4T0Q0K-K325P5MVZ0BHP5SD-7853". The second field is labeled "License Key:" and contains the text "HNO4O8OS945K3ZF0AI1A47611GE0". At the bottom of the dialog box, there are two buttons: "Cancel" and "Register".

2. Click **Register** to complete the activation process.
3. ' *Activation Completed Successfully* ' message is displayed after the process is completed successfully. Click **OK**.

# Updating the Software

There are periodical software updates for **Stellar Phoenix Data Recovery for iPhone**. The software updates should be done to keep the software up-to-date. The updates can be a newly added functionality, a new feature, a new service or any other information that can be important for improvement. Update option in the application is capable of checking for the latest updates. This will check for both latest minor and major version available online. You can easily download minor version through the update wizard. However, the major version, if available, has to be purchased. While updating the software, it's recommended to close all the running programs. Note that demo version can not be updated.

To update the application, follow the steps given below:

1. Click on **Update Wizard** button from the **Tools** menu bar. **Update Wizard** is displayed.
2. Click **Next**. A busy timer shows that updates are being searched. If it finds any new version, a message indicates the availability.
3. If a message is displayed that no updates are available, click **Cancel** to close the wizard.
4. Click **Next**. The software will start downloading the update files from the server. When the process is complete, the software will upgrade to the latest version.
