

Stellar Outlook Duplicate Remover

Installation Guide

Version 6.0

Overview

Duplicate items are often present in the Outlook mailbox. Multiple copies of a mail are saved when replies or forwarding is done to many persons. Duplicate mails can be present anywhere from Inbox or Outbox folder to Sent Items folder. These duplicate mails, unnecessarily increase the size of PST files. Your PST file can get oversized than its prescribed limit and get corrupted. Large sized PST files often slow the system.

Stellar Outlook Duplicate Remover is a powerful software to remove duplicate items from MS Outlook mailboxes. The application easily and precisely removes duplicates according to the set comparison criteria. A wide range of comparison criteria is given in the software. You can compare and mark the mails as flagged, expired, copy or move the duplicate mails to a folder. You can also delete the duplicate mails to move them in deleted items folder or delete them permanently.

Transfer License

Stellar Outlook Duplicate Remover allows you to transfer the license of the registered software to another computer on which you want to run the software with full functionality. This operation deactivates the product on your current computer so it can be reactivated on the new computer.

To transfer a software license from one computer to another, please follow the specific steps below:

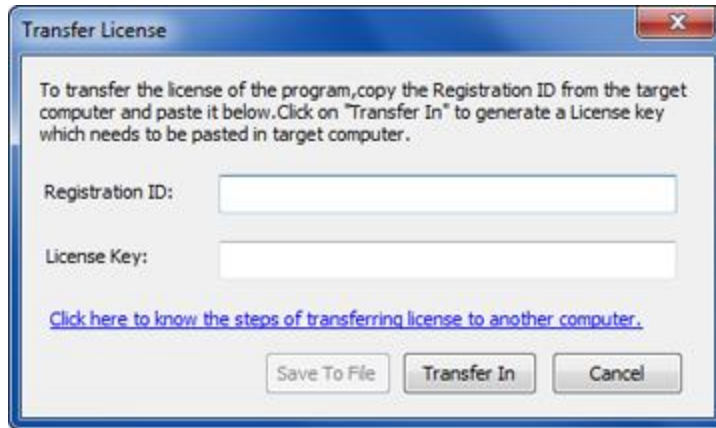

On Target Computer:

1. Run demo version of the software.
2. Click **Register** button. A new dialog appears.
3. From the **Register** dialog, select **Offline Registration**. Click **OK**.
4. An **Offline Registration** dialog box will appear displaying **Registration ID** in its respective field.

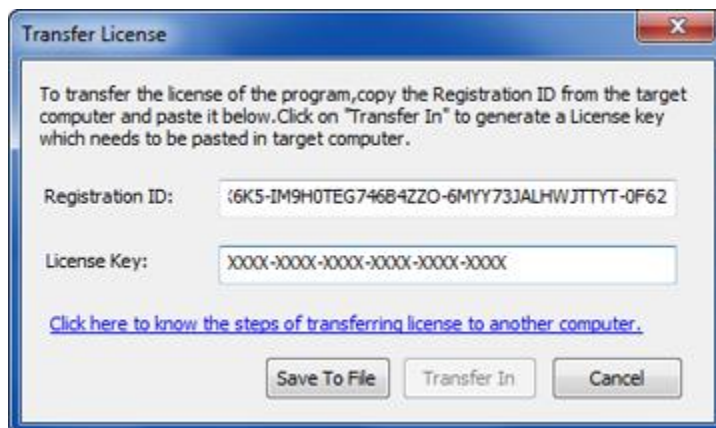

On Source Computer:

1. Run registered version of **Stellar Outlook Duplicate Remover** software.
2. Click **Transfer License** button.

3. Copy the **Registration ID** displayed on the Target Computer in the field of Registration ID on the Source Computer.
4. To get your License Key, click **Transfer In** button on Source Computer. This will generate a License Key.

5. You can also save the License Key generated on the source computer. Click **Save To File** button to save the Registration ID and the License Key. In **Save As** dialog box, select the location where you want to save the details. Click **Save**.
6. '*License Key saved successfully*' message is displayed after the saving process is completed successfully. Click **OK**.

This will deactivate the product on Source Computer and you will no longer be able to use the software anymore on this computer.

On Target Computer:

1. Type the **License Key** which you have generated on the Source Computer in the provided field of License Key.

2. Click **Register** to complete the activation process.
3. '*Activation Completed Successfully* ' message is displayed after the process is completed successfully. Click **OK**.
