Stellar Phoenix Excel Repair

Version 5.5

Installation Guide

Overview

Stellar Phoenix Excel Repair is designed to repair corrupted Microsoft Excel (.xls and .xlsx) files. This software scans all selected Excel files and uses an advanced algorithm to restore Excel files back to their original state. The repaired files can either be saved to their original location on the hard disk, or to any user-specified location.

You can preview the Excel files before saving to a location. You can search for Excel files in folders and drives. You can save all or individual files. In addition, you can save files to original location or specific location.

Order and Register

You can purchase the software online. For price details and to place an order, click here.

On confirmation of order, a pre-paid serial number is sent to you through e-mail that would be required to register the software.

Register Stellar Phoenix Excel Repair:

After receiving the **Registration Key,** the software can be activated.

To register the software:

- Run demo version.

- On **Tools** Menu, Click **Activate**.

- Type Name and Activation Code. Click **OK**.

Updating the Software

There are periodical software updates provided by Stellar Information Technology Private Limited for **Stellar Phoenix Excel Repair** software. The software updates should be done to keep the software up-to-date. The updates can be a newly added functionality, a new feature, a new service or any other information that can be important for improvement. **Stellar Phoenix Excel Repair** software can be updated over internet.

To update the application, follow these steps:

1. Select '**Updates**' option in '**Tools**' menu. '**Update Wizard**' dialog box is displayed.

2. Click '**Next**'. A busy timer shows that updates are being searched. After the search is finished, you will get a message about availability / non-availability of updates.

3. If updates are not available, click '**Cancel**' to close the wizard.

4. If updates are available, click '**Next**' to download update files from the server. When the process is complete, the software will upgrade to the latest version.

Note: Demo version of the software can not be updated. If major version of the software is available, you have to purchase the software to upgrade it.
