Ordering the Software

Click <http://www.stellarinfo.com/media-tools/image-converter-mac.php> to know more about **Stellar Image Converter**.

To purchase the software online, please visit <http://www.stellarinfo.com/media-tools/image-converter-mac/buy-now.php>

Once the order is confirmed, a serial number will be sent to you through e-mail, which would be required to activate the software.

Activating the Software

The demo version of **Stellar Image Converter** can be downloaded from the Stellar web site, which allows you to preview the original image in the main user interface and convert images with size less than 500KB . To Convert and Save the images with size greater than 500KB to your system, you need to purchase Full version of the software. Software can be activated after receiving the activation code.

You can then follow the steps given below to activate the product:

1. On the **Tools** menu, click **Activate**. Activation window is displayed.
2. Do one of the following:
 - If you have purchased the product and received registration key,
 - Select **I have a key to register the product** option. Click **OK**.
 - In the Registration Key box, type the key. Click **OK**.
 - If you have to purchase the product,
 - Select **I don't have a key to register the product**. Click **OK**, to purchase the product.

Updating the Software

You can use the update feature of **Stellar Image Converter** to check and install the latest updates for the application. This will help you keep your application up-to-date. To update the software, click **Check for Updates** option in **Stellar Image Converter** menu.

To update Stellar Image Converter :

- Click **Check for Updates** in **StellarImageConverter** Menu.
- If updates are available, **Update** window is displayed. Follow the next step. Else, if no updates are available, a message showing '**No update found**' is displayed.
- Click **Update** button to download the latest version. It may take few seconds to minutes to download the files. After completion, '**Update successfully installed**' message appears. Click **OK**.
