

Stellar Phoenix JPEG Repair 4.5

Installation Guide

Overview

Stellar Phoenix JPEG Repair offers a complete solution for repairing corrupted photographs and image files having JPG or JPEG extension. It can repair JPEG files that are stored in hard disk of computer, memory card or any other storage media.

What's new in this version:

- New and Enhanced GUI.

Key Features:

- Repairs corrupted photographs and image files.
- Extracts thumbnails existing within the files.
- Preview repaired image files before saving them.
- Supports Windows 10 / 8.1 / 8 / 7 / Vista and XP.

Installation Procedure

Before beginning installation, make sure that the computer meets minimum system requirements.

Minimum System Requirements

- **Processor** : Pentium Class
- **Operating System** : Windows 10/ 8.1 / 8 / 7 / Vista and XP
- **Memory** : 1 GB RAM
- **Hard Disk** : 50 MB of Free Space

To install the software, follow the steps:

1. Double-click '**StellarPhoenixJPEGRepair.exe**'. A setup dialog box is displayed.
2. Click '**Next**' to continue. '*License Agreement*' dialog box is displayed.
3. Select '**I accept the agreement**' option. Click '**Next**' to continue.
4. Specify location where installation files are to be stored. Click '**Next**' to continue.
5. Select the folder where files are to be stored. A default folder is suggested in '*Select Start Menu Folder*' box. Click on '**Browse**' to select a different location. Click '**Next**'.
6. In '*Select Additional Tasks*' dialog box, choose the check box as per your choice. Click '**Next**'.
7. Review entries. Click '**Back**' if you want to make any changes. Click '**Install**' to start installation. The Installing screen shows the installation process.
8. After completion of installation process, '*Completing the Stellar Phoenix JPEG Repair Setup Wizard*' screen opens. Click '**Finish**'.

Note: Clear Launch **Stellar Phoenix JPEG Repair** check box to prevent the software from launching automatically.

Ordering the Software

Order Stellar Phoenix JPEG Repair

The software can be purchased online. For price details and to place an order, click [here](#).

Alternatively, if you are using the demo version, you can click **Buy Online**  icon from the main interface screen.

Registering the Software

Once the order is confirmed, a pre-paid registration key will be sent through e-mail, which would be required to register the tool.

On confirmation of order, a pre-paid serial number is sent to you through e-mail. This serial number will be required to register the software.

Register Stellar Phoenix JPEG Repair

After receiving the **Registration Key**, **Stellar Phoenix JPEG Repair** can be registered.

To register the software:

1. Run demo version of **Stellar Phoenix JPEG Repair**.
2. Click **Register**  icon from the main interface.
3. A **Register** dialog prompts as illustrated below:

The screenshot shows a dialog box titled "Register" with a close button in the top right corner. On the left side, there is a person icon. The main text reads: "Enter the registration name and key below, exactly as given to you." Below this text are two input fields: "Name" and "Key". At the bottom of the dialog, there are two buttons: "Cancel" and "OK".

4. Type **Name** and **Key**.
5. Click **OK**.

Updating the Software

Stellar releases periodical software updates for **Stellar Phoenix JPEG Repair** software. You can update the software to keep it up-to-date. These updates can add a new functionality, feature, service, or any other information that can improve the software. Update option of the application is capable of checking for latest updates. This will check for both latest minor and major versions available online. You can easily download minor version through the update wizard. However, the major version, if available, has to be purchased. While updating the software, it's recommended to close all the running programs. Note that demo version of the software cannot be updated.

To update Stellar Phoenix JPEG Repair:

- Click **Update**  icon from the main interface.
- **Stellar Phoenix Update Wizard** window opens. Click **Next**. The wizard will search for latest updates, and if it finds any new updates, a window will pop up indicating its availability.
- Click **Next** and the software will download the files from the update server. When the process is complete, the software will upgrade to the latest version.

Live Update may not happen due to following reasons:

- Internet connection failure
- Updates are not available
- Unable to download configuration files
- Unable to locate updated files or version
- Unable to locate executable file

Note: *If a major version is available, you need to purchase the software in order to upgrade it.*
