Stellar Phoenix Update Wizard

Update feature available in '**Stellar Mail Backup**' allows you to check the latest updates. This will help you to keep your application up-to-date. You can easily download minor version through the update wizard. However, the major version, if available, has to be purchased. While updating the software, it's recommended to close all running programs.

For getting updates,

- Click '**About**'  icon on the main user interface. A window opens.
- '*Stellar Phoenix Update Wizard*' window pops up. Click '**Next**' to proceed.
- The wizard will start searching for latest updates and if it finds any new version, you get the update screen and follow the next step. Else, you get a message that '*Application has all the latest updates. Click cancel to close the window.*'
- Click '**Next**', the software will start downloading update files from the server. When the process is complete, the software will upgrade to latest version.
- After installing the latest available version, restart '**Stellar Mail Backup**'.

Live Update may not happen due to following reasons:

- Internet connection is not available.
- There are no updates available on the update site
