Stellar Phoenix
Outlook PST Repair 6.0

Installation Guide

Overview

Stellar Phoenix Outlook PST Repair offers a complete solution to repair damaged Microsoft Outlook Personal Storage (PST) files.

The software repairs corrupt PST files and restores all its content such as e-mails, attachments, contacts, calendars, tasks and journals. **Stellar Phoenix Outlook PST Repair** scans and extracts data from a damaged PST file, repairs it and then saves it as a new usable PST file. To view repaired items, you need to import the new PST file into MS Outlook.

Stellar Phoenix Outlook PST Repair also ensures recovery of accidentally deleted e-mails that you have emptied from the deleted items folder. After recovering the PST file, the software shows its original content. All folders from the original PST file are shown along with their content in a three-pane structure.

What's New in this Version?

Updating the Software

Stellar releases periodical software updates for **Stellar Phoenix Outlook PST Repair** software. You can update the software to keep it up-to-date. These updates can add a new functionality, feature, service, or any other information that can improve the software. Update option of the application is capable of checking for latest updates. This will check for both latest minor and major versions available online. You can easily download minor version through the update wizard. However, the major version, if available, has to be purchased. While updating the software, it's recommended to close all the running programs. Note that demo version of the software cannot be updated.

To update Stellar Phoenix Outlook PST Repair:

1. Go to **Tools** option in **Menu Bar**. Click **Update Wizard**.

2. **Stellar Phoenix Update Wizard** window will open. Click **Next**. The wizard will search for latest updates, and if it finds any new updates, a window will pop up indicating its availability.

3. Click **Next** and the software will download the files from the update server. When the process is complete, the software will upgrade to the latest version.

Live Update may not happen due to following reasons:

- Internet connection failure

- Updates are not available

- Unable to download configuration files

- Unable to locate updated files or version

- Unable to locate executable file

Note: *If a major version is available, you need to purchase the software in order to upgrade it.*
