

# **Stellar PST Splitter**

**Installation Guide**

**Version 6.0**

# Overview

Microsoft Outlook data is stored in the personal folders file that ends with the PST extension. Almost all the data that one stores in various Outlook folders goes in to the PST file linked with that profile. Outlook PST file, also known as Outlook Data File contains all items like emails, calendars, to-do lists, tasks, journals, notes, contacts. Protecting this data is crucial since it contains confidential, personal and financial information.

One of the major threats to Outlook PST is that of size limit being exceeded. This in turn can cause damage to the PST file. Outlook versions before Outlook 2003, had a size limit of 2GB for the PST files and if the file exceeds this size limit, it can instantly lead to a corruption in the PST file. Inbox Repair Tool or SCAN PST fails to work on such large files.

Some versions of Outlook do allow PST file size to grow up to 20 GB. Due to this, danger of PST file getting corrupted is less probable. Still large PST file will take a longer time to start up as well to switch folders or view mail folders. In fact, as the PST file grows larger in size, there is a gradual degradation in the performance of Outlook.

**Stellar PST Splitter** is a very powerful and robust application that helps you split large PST files into smaller files as per the criteria specified by you.

## What's new in this version?

- Support for MS Outlook 2016

## Key Features

- Splits PST files on the basis of:
  - Date
  - Size
  - Mail ID
  - Folders
- Allows to split single or multiple files in one operation.
- Saves all your preferences to split files in a batch file.
- You can create your own batch file to automate splitting of multiple files.
- All activities of application are recorded in a log.
- Application doesn't make any changes in the original PST.
- Supports MS Outlook 2003, Outlook 2007, Outlook 2010 and Outlook 2013.

**Note:** Every time a split operation is performed, a new PST file is created without altering the contents and structure of original PST file. Thus **Stellar PST Splitter** never causes any damage to your invaluable original PST file.

Note: Please ensure you have a working internet connection for online activation.

Where is my registration key?  
The registration key has been sent to you through email by our payment gateway, after successful purchase of software.  
Registration key is sent to the same email id, which you specified in your purchase details.

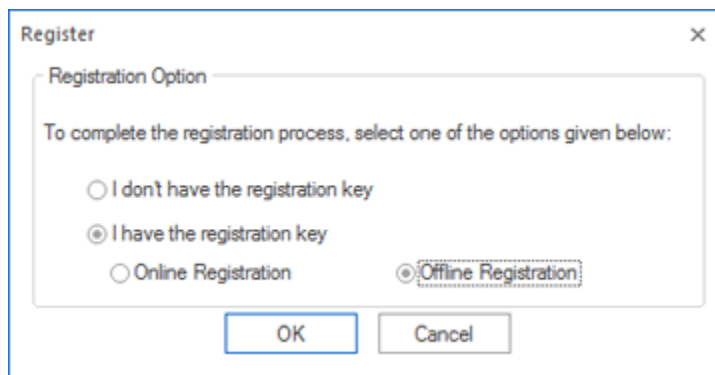

4. The software would automatically communicate with the license server to verify the entered key. If the key you entered is valid, software will be registered successfully.

- **Offline Registration**

Offline Registration enables you to register the product when your computer does not have an Internet connection.

- **To register the software offline:**

1. From the *Register* window, select **Offline Registration**. Click **OK**.

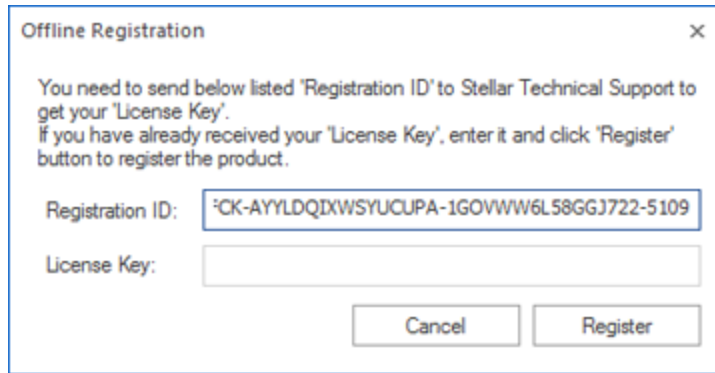

Register

Registration Option

To complete the registration process, select one of the options given below:

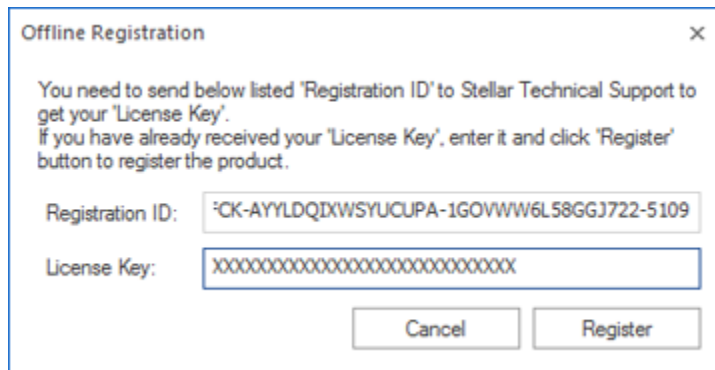

☐ I don't have the registration key  
☒ I have the registration key  
☐ Online Registration ☒ Offline Registration

2. An **Offline Registration** dialog box will appear displaying **Registration ID** in its respective field.

The dialog box is titled "Offline Registration" with a close button (X) in the top right corner. It contains the following text: "You need to send below listed 'Registration ID' to Stellar Technical Support to get your 'License Key'. If you have already received your 'License Key', enter it and click 'Register' button to register the product." Below the text, there are two input fields. The first is labeled "Registration ID:" and contains the text "CK-AYYLDQIXWSYUCUPA-1GOVWW6L58GGJ722-5109". The second is labeled "License Key:" and is currently empty. At the bottom right, there are two buttons: "Cancel" and "Register".

3. To get your License Key, which is required to register the software manually, you need to mail the listed **Registration ID** to [support@stellarinfo.com](mailto:support@stellarinfo.com).
4. A License Key will be sent to your email address after verifying the Registration ID and purchase details by *Stellar Technical Support*.
5. After receiving the License Key, open **Stellar PST Splitter**. In *Register* window, select '**I have the registration key**'.
6. Select **Offline Registration** and click **OK**.
7. Enter the **License Key** received through email in the field of License Key.

This dialog box is identical to the one above, but the "License Key:" input field now contains a series of 'X' characters: "XXXXXXXXXXXXXXXXXXXXXXXXXXXX". The "Registration ID:" field remains the same, and the "Cancel" and "Register" buttons are still at the bottom right.

8. Click **Register** to activate the software. A confirmation message is displayed if a valid key is entered. Click **OK**.

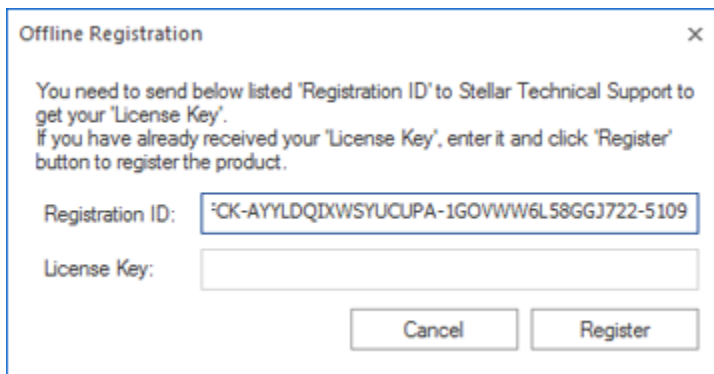

# Transfer License

**Stellar PST Splitter** allows you to transfer the license of the registered software to another computer on which you want to run the software with full functionality. This operation deactivates the product on your current computer so it can be reactivated on the new computer.

**To transfer a software license from one computer to another, please follow the specific steps below:**

## On Target Computer:

1. Run demo version of the software.
