

Stellar Phoenix Windows Data Recovery Home 7.0 Installation Guide

Overview

Stellar Phoenix Windows Data Recovery is a complete solution to recover lost data from your hard disks and removable drives. It is a complete solution for all your data loss problems. The powerful scan engine of the software does a thorough scan of the selected storage device, shows a preview of files found during the scanning process and finally saves them to specified destination. Separate options to recover documents, folders, mails or multimedia files from the storage media is also available.

Stellar Phoenix Windows Data Recovery allows you to save scan information to resume recovery process from the same point, at a later stage.

Listed below are some of the new and key features of the product.

Ordering the Software

To know more about **Stellar Phoenix Windows Data Recovery**, click [here](#).

You can purchase **Stellar Phoenix Windows Data Recovery** software online. For pricing details and to place an order, visit <http://www.stellarinfo.com/disk-recovery/windows-data-recovery/buy-now.php>

Alternatively, if you have already downloaded and installed the demo version of the software, click directly

on the  (*Buy*) button on the main user interface.

Registering the Software

The demo version is just for evaluation purpose and must be eventually registered to use the full functionality of the software. The software can be registered using the Registration Key which you will receive via email after purchasing the software.

To register the software:

1. Run demo version of **Stellar Phoenix Windows Data Recovery** software.
2. On main user interface, click **Register** option. *Register* window is displayed as shown below:

3. Choose 'I don't have the registration key' (Use this option if you have not purchased the product) or select 'I have the registration key' (Use this option if you have already purchased the product). If you want to import license from another computer, select 'I want to import license from another machine'.

To register the software, when you do not have a registration key, follow the steps given below:

1. In the *Register* window, select '**I don't have the registration key**' option. Click **OK**, to go online and purchase the product.
2. Once the order is confirmed, a Registration Key will be sent to the email provided.
3. In the *Online Activation* window, type the **Registration Key** and click **Register** button (Please ensure that you have an active Internet connection).

4. '**Stellar Phoenix Windows Data Recovery Activated Successfully**' message is displayed after the process is completed successfully. Click **OK**.

To register the software, when you have a key, follow the steps given below:

1. In the *Register* window, select '**I have the registration key**' option.
2. An *Online Activation* dialog box will appear.
3. Type the **Registration Key** (received through email after purchasing the product) in the field of Registration Key. Click **Register**.
4. The software would automatically communicate with the license server to verify the entered key. If the key you entered is valid, software will be registered successfully.

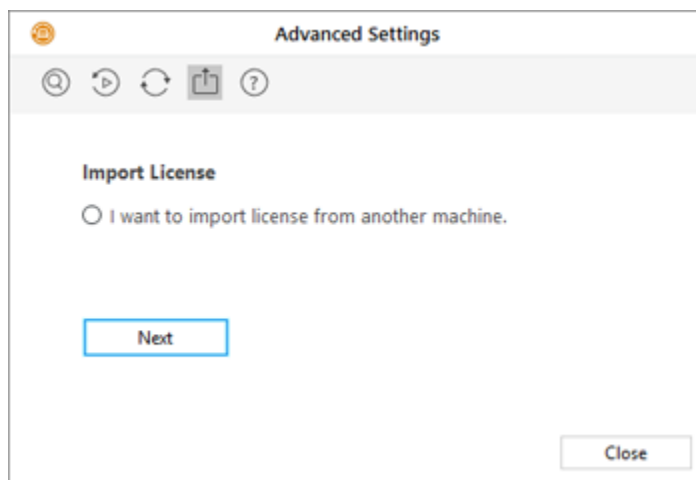

Export License

Stellar Phoenix Windows Data Recovery allows you to export the license of the registered software to another computer on which you want to run the software with full functionality. This operation deactivates the product on your current computer so it can be reactivated on the new computer.

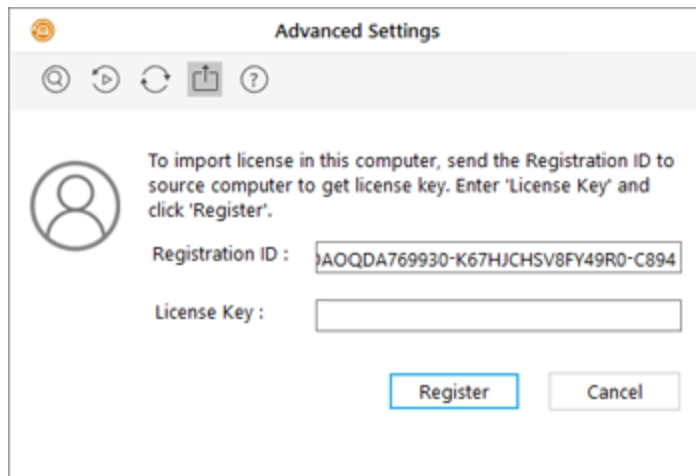

To export a software license from one computer to another, please follow the specific steps below:

On Target Computer:

1. Run demo version of the software.
2. Click **Advanced Settings** button.
3. Click **Import License**  button from **Advanced Settings** window.

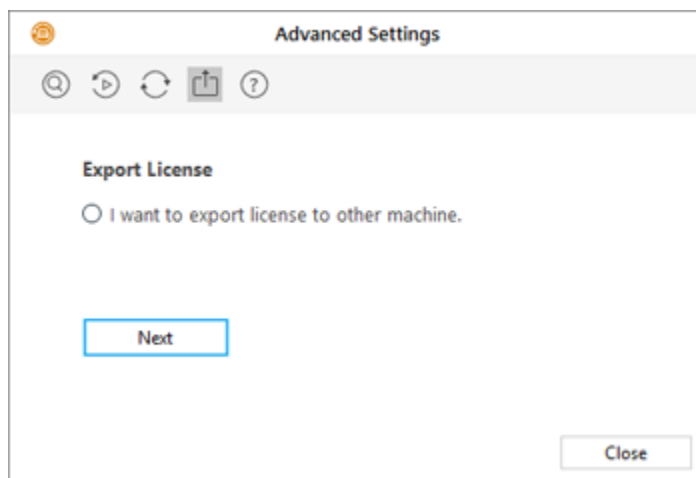

4. Select 'I want to import license from another machine' and click **Next**.
5. An **Import License** dialog box will appear displaying **Registration ID** in its respective field.

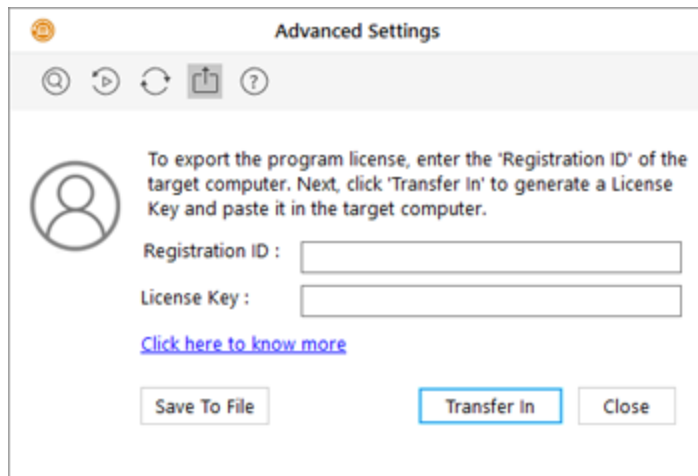

On Source Computer:

1. Run registered version of **Stellar Phoenix Windows Data Recovery** software.
2. Click **Advanced Settings** button.
3. Click **Export License**  button from **Advanced Settings** window.

4. Select '**I want to export license to other machine**'. Click **Next**.

5. In **Export License** dialog box copy the **Registration ID** displayed on the Target Computer in the field of Registration ID on the Source Computer.
6. To get your License Key, click **Transfer In** button on Source Computer. This will generate a License Key.
7. You can also save the License Key generated on the source computer. Click **Save to File** button to save the Registration ID and the License Key. In **Browse for Folder** dialog box, select the location where you want to save the details. Click **OK**.
8. '**License Key has been saved successfully**' message is displayed after the saving process is completed successfully. Click **OK**.

This will deactivate the product on Source Computer and you will no longer be able to use the software anymore on this computer.

On Target Computer:

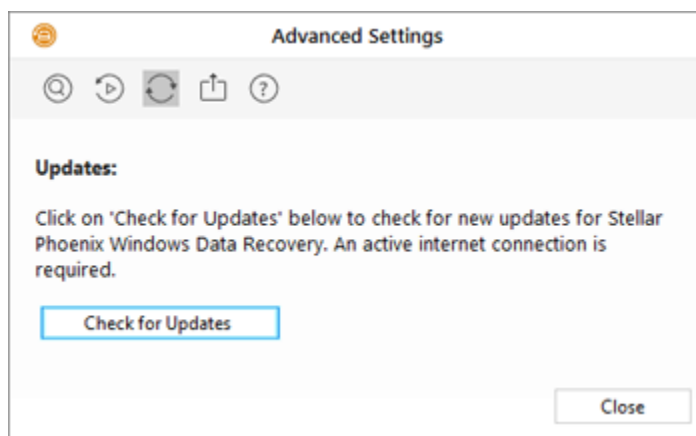

1. Type the **License Key** which you have generated on the Source Computer in the provided field of License Key.
2. Click **Register** to complete the activation process.
3. '**Stellar Phoenix Windows Data Recovery Activated Successfully**' message is displayed after the process is completed successfully. Click **OK**.

Updating the Software

Stellar Phoenix Update Wizard keeps your copy up-to-date. The wizard runs the update process and automatically checks for updates. You need an active internet connection to check for updates using Update option of the application. Using **Update** option, you can check for both, latest minor and major versions available online. You can easily download minor versions using the update wizard. However, you need to purchase any major version updates whenever they are available.

To start Stellar Phoenix Update Wizard:

1. Run **Stellar Phoenix Windows Data Recovery** software.
2. On main screen, click **Advanced Settings**  button.
3. In **Advanced Settings** menu, click **Update**  button.

4. From **Updates** dialog box select **Check for Updates** option.
5. '**Stellar Phoenix Update Wizard**' window pops up. Click **Next** to proceed.
6. The wizard will start searching for the latest updates and if it finds any new version, a window will pop up indicating the availability an update.
7. Click **Next** and the software will start downloading update files from the server. When the process is complete, the software will update to the latest version.

Live Update may not happen due to following reasons:

- Internet connection failure

- Unable to download configuration files
- Unable to locate updated files or version
- Unable to locate executable file

Tip: *You need to purchase the major version updates of the software, whenever they are available.*
